And What Have You

By BOB CRAIG

With the moving of the Hamlin Board of Community Development office to the new City Hall Annex, the waste paper trailer has also been moved. It is now located behind the City Hall.

Apparently there has been some confusion about the paper drive in the past. It seems that some people were under the impression that the drive was only a one time affair but this is not the case. The BCD has been collecting the waste paper for about two years now and has financed a number of local projects with the money collected.

Among the many projects being financed with the proceeds of this project has been the swimming pool, the summer recreation program and the child day care center which is still in the process of being organized.

Because this is such a painless way to finance so many fine local projects we would urge your continued support.

Probably a great many Jones County voters are wondering why they have received "Corrected" Voter Registration Certificates in the mail. The reason for the new certificates is that the county has redrawn and renumbered the voting precincts.

Hamlin voters are now in either voting precinct 1 or 14. Voting precincts were cut from 16 to 14 but were also renumbered from back in the days when there were over 30 voting boxes in the county.

The Democratic Primary coming up May 4 will be the first election under this new arrangement of voting boxes and will likely cause some confusion here in Hamlin and perhaps elsewhere too.

As long as we have been in Hamlin there have been two voting boxes, called east and west boxes. There still will be two boxes but some of the people who in the past have voted in the east box will now vote in the west or Precinct 1 box and some who have voted in the west box will now vote in the east or south box, Precinct 14. Polling place locations have not been announced.

North and South Central is no longer the dividing line for Hamlin. The new line wanders its way through the eastern and southern part of Hamlin and your best bet is just to look on your new certificate and see what your precinct number is.

And while on the subject we will pass along the following voter guidelines as furnished by the Texas Democratic Party.

Those who are not registered to vote have until 30 days prior to the primaries to register. All registered voters, 18 years and older, are eligible to vote in either of the primaries.

Under the present voter registration system in Texas, voters who cast a ballot in either the primaries or a General Election are automatically registered for another three years. You no longer have to register each year.

If you move within the county you should notify the County Tax Assessor-Collector of the change of address five days prior to the election so that you will be registered in the proper precinct.

On moving from one county to another, you must re-register 30 days prior to the election, if you wish to vote in your new place of residence.

We extend our congratulations to Jerry Wallace as the new publisher of the Western Observer in Anson and to Ed Sprowls on his well earned retirement.

VISITS HERE WEDNESDAY—

Farabee Brings Senate Campaign to Hamlin

Ray Farabee, Democratic candidate for the state senate seat being vacated by Senator Jack Hightower, brought his campaign to Hamlin Wednesday morning.

This was Farabee's third visit in Hamlin.

The Wichita Falls attorney and businessman met with his key leaders in Hamlin and then talked with citizens on the street and in business establishments. He answered questions and listened to concerns expressed by voters.

After extensive travel in the 30th district Farabee observed that shortages of fuel and fertilizer are worrying most citizens. Other areas often mentioned are inflation, honesty in government and taxes. "The average voter expresses a distrust of big government and wants to see a common sense approach to problem solving," said Farabee.

Farabee arrived in Hamlin from Stamford where he spoke Tuesday to the noon meeting of the Rotary Club on Estate Planning. On Tuesday evening he addressed the Stamford Lions Club on Estate Planning. In his 12 years of law practice, Farabee has had extensive experience in both areas.

A long time worker in the Democratic party, this is the first time Farabee has sought political office. He went from Hamlin to Roby and Rotan.

FROM THE FILES . . .

FIFTY YEARS AGO
(February 29, 1924)

On Monday evening, March 3, at 7:30 p.m., is the regular meeting date of the Hamlin School Parent-Teacher Association. The membership committee of the Association is making a special effort to have a large attendance on this date, as there is important business to be transacted. Mrs. E. M. Wilson, president, reports that $82.55 has been paid by school patrons in response to the letter calling for $315.00 to cover indebtedness on the piano and playground equipment. Funds collected on the Congress of Mother's birthday cake amounting to $20.90, have also been applied on the fund, making a total of $103.45.

There is an effort to re-organize the Hamlin Band. Last Monday night, Band Master Collum of Stamford, accompanied by Mr. Masterson and Waggoner were in Hamlin and met with about 25 of the boys. There was much enthusiasm and it was decided that all the boys should meet Mr. Collum again on Friday night. All boys and parties interested in the Hamlin Band should bear this in mind and come to the meeting in the City Hall.

It is necessary in the interest of the public, to improve the sanitary conditions of our town and to make it a more beautiful place to live. Therefore, the week of March 3rd and 8th, has been declared as general Clean-Up-Week. This work will be under the supervision of the Woman's Literary Club, the Chamber of Commerce and the County Agent, J. R. Masterson.

TWENTY YEARS AGO
(March 5, 1954)

Definite plans for a three-day train trip to New Orleans as the annual class tour were made this week by the 39-member senior class at Hamlin High School. The group will make the trip by a special coach on the Texas and Pacific Railway, leaving on May 12 and returning on May 15.

Small grain crops in the Hamlin area are beginning to need some moisture to put them on the go again. While most of the fields still are fairly green from the drink they received in early January, high winds of recent days are drying things out.

County Fund Campaign Chairman, Frank Cannon of Stamford, has announced quotas and chairman for various communities of the county. Total amount sought in the county is $8,000, which is about $200 less than last year's goal.

The school tax collection for 1953 has been approximately 99 percent paid, according to Haskell Carter, tax assessor-collector for the Hamlin school. With valuations of $15,700,000 for the district, the school is in good financial condition.

Two completions and three new projects in the Hamlin area constitute highlights on the oil scene for the week.

Hamlin area 4-H Club and the FFA Chapter ran up against stiff competition in the Abilene regional livestock show, held the first of the week. They came away with several winnings, but only one first place.

TEN YEARS AGO
(March 5, 1964)

The Hamlin Piperettes captured the bi-district championship Tuesday night by defeating Iowa Park 42-31 in the Seymour High School Gymnasium. Barbara Lakey and Cheryl Brown shot over 60 percent from the floor and each pulled down five offensive rebounds. Kay Hodnett stole the ball four times and Donna Compton accounted for six defensive rebounds. The girls will leave Friday for Regional Playoffs in Lubbock on the campus of Texas Tech.

Van and Dan Newberry, freshmen students at Hardin-Simmons University in Abilene are members of the HSU golf team that opens its 1964 schedule Thursday in Fort Worth against Texas Wesleyan College.

Hamlin High School Track Team carried 19 boys to Iowa Park last Saturday where they participated in their first track meet of the season. Lake Highlands claimed the title by outscoring the best team 116 to 74. The Pipers took eighth place in a field of 25 teams. The Pipers scored 20 points. Larry Butler, Robert Pearce, Mike Shivers and Larry Simpson were the point winners for the Pipers.

The president of the Texas and Southwestern Cattle Raisers Association said today that legislation to adequately restrict beef imports seems a more logical solution to the present law cattle price problem than the Administration's government beef buying program.

Philosopher Gets On Dangerous Ground But Quickly Changes Subject

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reports on several things this week which we have no comment on.

Dear editor:

I've got this neighbor out here who came busting in my house the other day and said, "Talk about shortages. I tell you, when they start kidnapping newspaper editors there's bound to be a shortage of kidnap victims."

"Now wait a minute," I said. "What editors are you talking about?"

"And talk about inflation," he went on. "Seven hundred thousand dollars for one editor?"

"What's wrong with that?" I asked. "I mean, how much do you think the average editor is worth? No, skip it. Let's not go into that."

In fact, I'd better change the subject in a hurry. Lately I've been bringing some old sayings up to date, like "Early to bed and early to rise, in these daylight saving times makes a man go to sleep with the sun in his eyes."

Or, A penny saved won't even meet yesterday's rise in the price of a gallon of gas.

Some of them don't need changing, like Honesty is the best policy. Can't you just hear all the people being indicted in the Watergate mess saying, "Doggone, why didn't we think of that?"

And there are still great morals to be drawn from some of the older sayings. Take the one about the lack of a horseshoe nail. You know: For want of a nail the shoe was lost. For want of a shoe the General's horse went lame. For want of a horse the battle was lost.

The moral to this is simple: End war. Stop making horseshoe nails.

Yours faithfully,
J. A.

Deadline Changed

Graduates

Navy Seaman Recruit David C. Tyler, son of Mrs. Melvinaa M. Hernandez of 202 N. E. Sixth St., graduated from recruit training at the Naval Training Center in Great Lakes, Ill. in February.

A former student of Hamlin High School, he is scheduled to report to Great Lakes.

Whiter than Snow...

"Purge me with hyssop, and I shall be clean: wash me, and I shall be whiter than snow." The Psalmist desired to be pure and white as snow, and knew that this could come only from God. Complete joy, and gladness of a pure heart can be yours too, when you walk close with the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Hike-Bike for Retarded Campaign Planned Here

Mrs. C. L. Howard has been named chairman of the Hamlin 1974 National Hike-Bike for the Retarded, it was announced today by Dana Wright president of the Future Homemakers of America.

"On Mar. 30, Mrs. Howard announced, "citizens of Hamlin, will have an opportunity to take part in this worthwhile event. We hope everyone who can will join us in the "Hike-Bike" either as participants or sponsors." Mrs. Howard pointed out that the National Association for Retarded Citizens has named Calvin Hill, star running back of the Dallas Cowboys, as National Chairman of the 1974 Hike-Bike for the Retarded.

The Hike-Bike campaign calls on volunteer citizens all across the country to either "hike" or "bike" for the retarded, over a measured course. Businesses, clubs and individuals are asked to pledge so much per mile for each mile walked or ridden by participants . Riding is the event chosen for this area. The Bicycle ride will take place on March 30, at 9:00 a.m.

Bikers will rally at the Football Field and the measured course will run from Hamlin to Anson. Check points will be set up at intervals along the route, to accurately clock miles ridden by participants. "Walks and Bike rides have been very successful in other parts of the country," Mrs. Howard stated, "and have raised thousands of dollars for the mentally retarded. I know we can count on the citizens of Hamlin to make the campaign here an outstanding success."

Interested riders or sponsors are urged to contact an FHA member.

NEWS FROM Sylvester

By MRS. R. M. BABB

Nope, I don't know what happened last week but maybe the column will be longer this week. Did you miss it?

I said I wouldn't say a word about the weather——.

May Hurst spent several days with her sister, Ezell Whitten after she returned home from the hospital last week. Had a note from her this morning and she is doing fine.

The Babbs visited friends in Haskell last Friday, those that we could find home.

Just had the report that Mrs. Whitten is back in the hospital.

Mrs. Donnie Gann is out of the Stamford hospital having spent the past few days there.

W. B. Brown and R. M. Babb visited Aunt Mary Jones in Central Nursing Home in Abilene last week. She is doing fair.

Mrs. Buford Brown's sisters, Nadine, Christine and one of their friends from Abilene visited with her one day last week.

Ruth McElyea and children, Mrs. Levora McElyea of Ft. Stockton visited in the Ross Douglass and J. P. Maberry homes here and with Ruth's Mother, Mrs. Lena Perkins in Hamlin.

Visiting over the weekend in the W. B. Brown home were Mrs. Max Deel, Belinda and Bobby of Levelland and on Sunday the Prather family of Sweetwater.

Mrs. Med Herron's daughter from Snyder visited with her over the weekend.

Visiting in the home of their Mother, Mrs. Glena Turner was the Bartley family and Pat Gaasch all of Odessa.

Our sympathy to the Roberts family due to the death of Lamar.

(from last week)

Today is a different day than last Monday. If you missed that sand storm then you were plain lucky. Evangelist Stephen Brumbelow drove out from Houston and he left there in the rain, of course he was able to see rain, sleet, snow and sand all in one day. We only received .2 in. of moisture during the week.

Joel Smith of Gladewater visited with his sister last week, Mrs. Velma Reed, also in the Reed home last week were Frank and Mabel Ferguson of Lamesa.

Mike Meek spent several days in Hamlin hospital last week but is home now.

Celebrating her birthday last Sunday in the home of the Fay Doziers was their daughter-in-law, Mrs. J. F. Dozier. Also celebrating were Mrs. Birdie Lee Parher and son, Leon of Abilene and Mrs. Doziers family of Anson.

The W. B. Brown's drove to Sweetwater Sunday afternoon to help their granddaughter, Sheila Prather celebrate her 12th birthday.

Mr. and Mrs. Woodrow Lawlis attended the Revival Services at McCaulley Baptist Church on Saturday night and also attended fellowship after services.

Darrell Craig On Honor Roll

Darrell Craig, senior at the University of Texas at Austin, was named to the Dean's Honor List for the fall semester.

His name was listed Ampla Cum Laude (among the upper 8.1 percent of the 5,914 students enrolled in the College of Natural Sciences for the fall semester, 1973.

He is the son of Mr. and Mrs. Bob Craig.

6 WAYS TO CONSERVE AND SAVE

ON HOME LAUNDRY

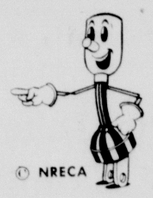

1. Wash and dry a full load, but never overload . . . it is essential for each item to move freely for proper cleaning and drying.
2. Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.
3. Too much detergent can clog machine and drains . . . always measure, don't guess. Follow the manufacturers recommendations for your equipment. Mixing brands of detergents can cause graying of clothes.
4. Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!
5. An important maintenance function for you to do is to clean the lint trap and lint filter on both washer and dryer after each load of a full day's use of your home laundry.
6. Never-Never pour bleach directly into the washer with clothes in it. Always diiute bleach before adding it to wash water. Also, timing is important. Bleach should be added after the clothes have washed at least 5 minutes.

REWARD OFFERED

Stamford Electric Cooperative, Inc. is offering a $100.00 reward for information leading to the arrest and conviction of anyone guilty of destroying Cooperative property.

Members should be on the lookout for vandals shooting out Security Lights, shooting insulators or transformers. These acts of vandalism are not only very dangerous to those who are responsible for such acts, but are also a very real threat to the life and property of others.

An electrical wire hanging low, because the insulator supporting it has been shot away, could be very deadly to anyone or anything coming in contact with it.

These acts of vandalism, besides being aggravating, when they cause your electricity to be off, become very costly in materials damaged and time spent to replace and repair the damage.

QUAPAW cotton

ANOTHER GREAT VARIETY FROM
ROGERS DELINTED COTTONSEED

Texas cotton growers from the Valley to the high plains are reporting favorably their results of planting the new QUAPAW Cotton from Rogers Delinted. Such comments as, "...the cotton strips and gins good and I am increasing my planting next year." QUAPAW cotton has a medium size storm resistant boll and good seedling vigor with medium size seed. QUAPAW responds well to single row, skip row or narrow row spacing. It harvests well with strippers or spindle pickers. QUAPAW gins good and cleans up good with extra high quality fiber.

Let's conserve fuel...and help drive down the high cost of living.

You know that stop and go driving wastes gas. But did you know that even in light traffic, your gas mileage drops off by 15%? And in heavy traffic by more than 45% when compared with 40-miles-per-hour in unobstructed traffic? Under these conditions gas mileage of 17 miles-per-gallon drops to somewhere around nine.

Traffic congestion costs you in other ways, too. Nearly everything we use—food, clothing, appliances, necessities and luxuries alike—travels by truck. And when operating costs go up due to poor road conditions, guess whose grocery bill goes up?

We could keep traffic flowing more smoothly, a lot more economically, and a lot less wastefully, by improving road conditions. Like paving or repaving sub-standard roads. By putting passing lanes on steep hills. By replacing narrow and weakened bridges, widening underpasses, getting rid of bottlenecks.

Smooth, steady driving means lower fuel consumption, thus lower operating costs. And that means one less thing to drive up today's prices. *The Road Information Program, Inc., 485 National Press Building, Washington, D.C. 20004.*

Your roads. You've got a lot riding on them.

NEWS AND VIEWS. . .

And What Have You

By BOB CRAIG

With the moving of the Hamlin Board of Community Development office to the new City Hall Annex, the waste paper trailer has also been moved. It is now located behind the City Hall.

Apparently there has been some confusion about the paper drive in the past. It seems that some people were under the impression that the drive was only a one time affair but this is not the case. The BCD has been collecting the waste paper for about two years now and has financed a number of local projects with the money collected.

Among the many projects being financed with the proceeds of this project has been the swimming pool, the summer recreation program and the child day care center which is still in the process of being organized.

Because this is such a painless way to finance so many fine local projects we would urge your continued support.

Probably a great many Jones County voters are wondering why they have received "Corrected" Voter Registration Certificates in the mail. The reason for the new certificates is that the county has redrawn and renumbered the voting precincts.

Hamlin voters are now in either voting precinct 1 or 14. Voting precincts were cut from 16 to 14 but were also renumbered from back in the days when there were over 30 voting boxes in the county.

The Democratic Primary coming up May 4 will be the first election under this new arrangement of voting boxes and will likely cause some confusion here in Hamlin and perhaps elsewhere too.

As long as we have been in Hamlin there have been two voting boxes, called east and west boxes. There still will be two boxes but some of the people who in the past have voted in the east box will now vote in the west or Precinct 1 box and some who have voted in the west box will now vote in the east or south box, Precinct 14. Polling place locations have not been announced.

North and South Central is no longer the dividing line for Hamlin. The new line wanders its way through the eastern and southern part of Hamlin and your best bet is just to look on your new certificate and see what your precinct number is.

And while on the subject we will pass along the following voter guidelines as furnished by the Texas Democratic Party.

Those who are not registered to vote have until 30 days prior to the primaries to register. All registered voters, 18 years and older, are eligible to vote in either of the primaries.

Under the present voter registration system in Texas, voters who cast a ballot in either the primaries or a General Election are automatically registered for another three years. You no longer have to register each year.

If you move within the county you should notify the County Tax Assessor-Collector of the change of address five days prior to the election so that you will be registered in the proper precinct.

On moving from one county to another, you must re-register 30 days prior to the election, if you wish to vote in your new place of residence.

We extend our congratulations to Jerry Wallace as the new publisher of the Western Observer in Anson and to Ed Sprowls on his well earned retirement.

VISITS HERE WEDNESDAY—

Farabee Brings Senate Campaign to Hamlin

Ray Farabee, Democratic candidate for the state senate seat being vacated by Senator Jack Hightower, brought his campaign to Hamlin Wednesday morning.

This was Farabee's third visit in Hamlin.

The Wichita Falls attorney and businessman met with his key leaders in Hamlin and then talked with citizens on the street and in business establishments. He answered questions and listened to concerns expressed by voters.

After extensive travel in the 30th district Farabee observed that shortages of fuel and fertilizer are worrying most citizens. Other areas often mentioned are inflation, honesty in government and taxes. "The average voter expresses a distrust of big government and wants to see a common sense approach to problem solving," said Farabee.

Farabee arrived in Hamlin from Stamford where he spoke Tuesday to the noon meeting of the Rotary Club on Estate Planning. On Tuesday evening he addressed the Stamford Lions Club on Estate Planning. In his 12 years of law practice, Farabee has had extensive experience in both areas.

A long time worker in the Democratic party, this is the first time Farabee has sought political office. He went from Hamlin to Roby and Rotan.

To Err Is Human. To Conserve Is Smart.

One smart way to conserve is to be more *efficient* with the use of energy in your home.

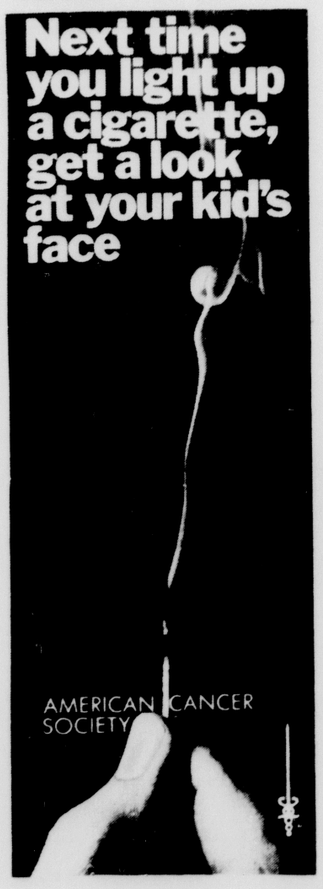

That means using natural gas for those jobs it does best—like cooking, water heating, clothes drying and heating your home. It's the most efficient use of energy for your fuel dollar.

The more efficient you are, the more you conserve and the more you can save. And that's real smart.

FROM THE FILES . . .

FIFTY YEARS AGO
(February 29, 1924)

On Monday evening, March 3, at 7:30 p.m., is the regular meeting date of the Hamlin School Parent-Teacher Association. The membership committee of the Association is making a special effort to have a large attendance on this date, as there is important business to be transacted. Mrs. E. M. Wilson, president, reports that $82.55 has been paid by school patrons in response to the letter calling for $315.00 to cover indebtedness on the piano and playground equipment. Funds collected on the Congress of Mother's birthday cake amounting to $20.90, have also been applied on the fund, making a total of $103.45.

There is an effort to re-organize the Hamlin Band. Last Monday night, Band Master Collum of Stamford, accompanied by Mr. Masterson and Waggoner were in Hamlin and met with about 25 of the boys. There was much enthusiasm and it was decided that all the boys should meet Mr. Collum again on Friday night. All boys and parties interested in the Hamlin Band should bear this in mind and come to the meeting in the City Hall.

It is necessary in the interest of the public, to improve the sanitary conditions of our town and to make it a more beautiful place to live. Therefore, the week of March 3rd and 8th, has been declared as general Clean-Up-Week. This work will be under the supervision of the Woman's Literary Club, the Chamber of Commerce and the County Agent, J. R. Masterson.

TWENTY YEARS AGO
(March 5, 1954)

Definite plans for a three-day train trip to New Orleans as the annual class tour were made this week by the 39-member senior class at Hamlin High School. The group will make the trip by a special coach on the Texas and Pacific Railway, leaving on May 12 and returning on May 15.

Small grain crops in the Hamlin area are beginning to need some moisture to put them on the go again. While most of the fields still are fairly green from the drink they received in early January, high winds of recent days are drying things out.

County Fund Campaign Chairman, Frank Cannon of Stamford, has announced quotas and chairman for various communities of the county. Total amount sought in the county is $8,000, which is about $200 less than last year's goal.

The school tax collection for 1953 has been approximately 99 percent paid, according to Haskell Carter, tax assessor-collector for the Hamlin school. With valuations of $15,700,000 for the district, the school is in good financial condition.

Two completions and three new projects in the Hamlin area constitute highlights on the oil scene for the week.

Hamlin area 4-H Club and the FFA Chapter ran up against stiff competition in the Abilene regional livestock show, held the first of the week. They came away with several winnings, but only one first place.

TEN YEARS AGO
(March 5, 1964)

The Hamlin Piperettes captured the bi-district championship Tuesday night by defeating Iowa Park 42-31 in the Seymour High School Gymnasium. Barbara Lakey and Cheryl Brown shot over 60 percent from the floor and each pulled down five offensive rebounds. Kay Hodnett stole the ball four times and Donna Compton accounted for six defensive rebounds. The girls will leave Friday for Regional Playoffs in Lubbock on the campus of Texas Tech.

Van and Dan Newberry, freshmen students at Hardin-Simmons University in Abilene are members of the HSU golf team that opens its 1964 schedule Thursday in Fort Worth against Texas Wesleyan College.

Hamlin High School Track Team carried 19 boys to Iowa Park last Saturday where they participated in their first track meet of the season. Lake Highlands claimed the title by outscoring the best team 116 to 74. The Pipers took eighth place in a field of 25 teams. The Pipers scored 20 points. Larry Butler, Robert Pearce, Mike Shivers and Larry Simpson were the point winners for the Pipers.

The president of the Texas and Southwestern Cattle Raisers Association said today that legislation to adequately restrict beef imports seems a more logical solution to the present law cattle price problem than the Administration's government beef buying program.

Philosopher Gets On Dangerous Ground But Quickly Changes Subject

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One reports on several things this week which we have no comment on.

Dear editor:

I've got this neighbor out here who came busting in my house the other day and said, "Talk about shortages. I tell you, when they start kidnapping newspaper editors there's bound to be a shortage of kidnap victims."

"Now wait a minute," I said. "What editors are you talking about?"

"And talk about inflation," he went on. "Seven hundred thousand dollars for one editor?"

"What's wrong with that?" I asked. "I mean, how much do you think the average editor is worth? No, skip it. Let's not go into that."

In fact, I'd better change the subject in a hurry. Lately I've been bringing some old sayings up to date, like "Early to bed and early to rise, in these daylight saving times makes a man go to sleep with the sun in his eyes."

Or, A penny saved won't even meet yesterday's rise in the price of a gallon of gas.

Some of them don't need changing, like Honesty is the best policy. Can't you just hear all the people being indicted in the Watergate mess saying, "Doggone, why didn't we think of that?"

And there are still great morals to be drawn from some of the older sayings. Take the one about the lack of a horseshoe nail. You know: For want of a nail the shoe was lost. For want of a shoe the General's horse went lame. For want of a horse the battle was lost.

The moral to this is simple: End war. Stop making horseshoe nails.

Yours faithfully,
J. A.

Deadline Changed

Graduates

Navy Seaman Recruit David C. Tyler, son of Mrs. Melvinaa M. Hernandez of 202 N. E. Sixth St., graduated from recruit training at the Naval Training Center in Great Lakes, Ill. in February.

A former student of Hamlin High School, he is scheduled to report to Great Lakes.

Whiter than Snow...

"Purge me with hyssop, and I shall be clean: wash me, and I shall be whiter than snow." The Psalmist desired to be pure and white as snow, and knew that this could come only from God. Complete joy, and gladness of a pure heart can be yours too, when you walk close with the Lord.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Hike-Bike for Retarded Campaign Planned Here

Mrs. C. L. Howard has been named chairman of the Hamlin 1974 National Hike-Bike for the Retarded, it was announced today by Dana Wright president of the Future Homemakers of America.

"On Mar. 30, Mrs. Howard announced, "citizens of Hamlin, will have an opportunity to take part in this worthwhile event. We hope everyone who can will join us in the "Hike-Bike" either as participants or sponsors." Mrs. Howard pointed out that the National Association for Retarded Citizens has named Calvin Hill, star running back of the Dallas Cowboys, as National Chairman of the 1974 Hike-Bike for the Retarded.

The Hike-Bike campaign calls on volunteer citizens all across the country to either "hike" or "bike" for the retarded, over a measured course. Businesses, clubs and individuals are asked to pledge so much per mile for each mile walked or ridden by participants. Riding is the event chosen for this area. The Bicycle ride will take place on March 30, at 9:00 a.m.

Bikers will rally at the Football Field and the measured course will run from Hamlin to Anson. Check points will be set up at intervals along the route, to accurately clock miles ridden by participants. "Walks and Bike rides have been very successful in other parts of the country," Mrs. Howard stated, "and have raised thousands of dollars for the mentally retarded. I know we can count on the citizens of Hamlin to make the campaign here an outstanding success."

Interested riders or sponsors are urged to contact an FHA member.

6 WAYS TO CONSERVE AND SAVE

ON HOME LAUNDRY

1. Wash and dry a full load, but never overload . . . it is essential for each item to move freely for proper cleaning and drying.
2. Choose the correct cycle for washing modern materials. Perhaps hot water isn't needed, and only a gentle drying temperature.
3. Too much detergent can clog machine and drains . . . always measure, don't guess. Follow the manufacturers recommendations for your equipment. Mixing brands of detergents can cause graying of clothes.
4. Many manufacturers of permanent press garments recommend machine washing and machine drying for best results. Following instructions on the garment tag can preserve the life of your clothing and give you wrinkle-free clothes without need for ironing. A big savings!
5. An important maintenance function for you to do is to clean the lint trap and lint filter on both washer and dryer after each load of a full day's use of your home laundry.
6. Never-Never pour bleach directly into the washer with clothes in it. Always diiute bleach before adding it to wash water. Also, timing is important. Bleach should be added after the clothes have washed at least 5 minutes.

BRAND NEW SELECTIONS OF FINE WRITING PAPERS JUST ARRIVED HAMLIN HERALD

REWARD OFFERED

Stamford Electric Cooperative, Inc. is offering a $100.00 reward for information leading to the arrest and conviction of anyone guilty of destroying Cooperative property.

Members should be on the lookout for vandals shooting out Security Lights, shooting insulators or transformers. These acts of vandalism are not only very dangerous to those who are responsible for such acts, but are also a very real threat to the life and property of others.

An electrical wire hanging low, because the insulator supporting it has been shot away, could be very deadly to anyone or anything coming in contact with it.

These acts of vandalism, besides being aggravating, when they cause your electricity to be off, become very costly in materials damaged and time spent to replace and repair the damage.

NEWS FROM Sylvester

By MRS. R. M. BABB

Nope, I don't know what happened last week but maybe the column will be longer this week. Did you miss it?

I said I wouldn't say a word about the weather——.

May Hurst spent several days with her sister, Ezell Whitten after she returned home from the hospital last week. Had a note from her this morning and she is doing fine.

The Babbs visited friends in Haskell last Friday, those that we could find home.

Just had the report that Mrs. Whitten is back in the hospital.

Mrs. Donnie Gann is out of the Stamford hospital having spent the past few days there.

W. B. Brown and R. M. Babb visited Aunt Mary Jones in Central Nursing Home in Abilene last week. She is doing fair.

Mrs. Buford Brown's sisters, Nadine, Christine and one of their friends from Abilene visited with her one day last week.

Ruth McElyea and children, Mrs. Levora McElyea of Ft. Stockton visited in the Ross Douglass and J. P. Maberry homes here and with Ruth's Mother, Mrs. Lena Perkins in Hamlin.

Visiting over the weekend in the W. B. Brown home were Mrs. Max Deel, Belinda and Bobby of Levelland and on Sunday the Prather family of Sweetwater.

Mrs. Med Herron's daughter from Snyder visited with her over the weekend.

Visiting in the home of their Mother, Mrs. Glena Turner was the Bartley family and Pat Gaasch all of Odessa.

Our sympathy to the Roberts family due to the death of Lamar.

(from last week)

Today is a different day than last Monday. If you missed that sand storm then you were plain lucky. Evangelist Stephen Brumbelow drove out from Houston and he left there in the rain, of course he was able to see rain, sleet, snow and sand all in one day. We only received .2 in. of moisture during the week.

Joel Smith of Gladewater visited with his sister last week, Mrs. Velma Reed, also in the Reed home last week were Frank and Mabel Ferguson of Lamesa.

Mike Meek spent several days in Hamlin hospital last week but is home now.

Celebrating her birthday last Sunday in the home of the Fay Doziers was their daughter-in-law, Mrs. J. F. Dozier. Also celebrating were Mrs. Birdie Lee Parher and son, Leon of Abilene and Mrs. Doziers family of Anson.

The W. B. Brown's drove to Sweetwater Sunday afternoon to help their granddaughter, Sheila Prather celebrate her 12th birthday.

Mr. and Mrs. Woodrow Lawlis attended the Revival Services at McCaulley Baptist Church on Saturday night and also attended fellowship after services.

Darrell Craig On Honor Roll

Darrell Craig, senior at the University of Texas at Austin, was named to the Dean's Honor List for the fall semester.

His name was listed Ampla Cum Laude (among the upper 8.1 percent of the 5,914 students enrolled in the College of Natural Sciences for the fall semester, 1973.

He is the son of Mr. and Mrs. Bob Craig.

Let's conserve fuel...and help drive down the high cost of living.

You know that stop and go driving wastes gas. But did you know that even in light traffic, your gas mileage drops off by 15%? And in heavy traffic by more than 45% when compared with 40-miles-per-hour in unobstructed traffic? Under these conditions gas mileage of 17 miles-per-gallon drops to somewhere around nine.

Traffic congestion costs you in other ways, too. Nearly everything we use—food, clothing, appliances, necessities and luxuries alike—travels by truck. And when operating costs go up due to poor road conditions, guess whose grocery bill goes up?

We could keep traffic flowing more smoothly, a lot more economically, and a lot less wastefully, by improving road conditions. Like paving or repaving sub-standard roads. By putting passing lanes on steep hills. By replacing narrow and weakened bridges, widening underpasses, getting rid of bottlenecks.

Smooth, steady driving means lower fuel consumption, thus lower operating costs. And that means one less thing to drive up today's prices. *The Road Information Program, Inc., 485 National Press Building, Washington, D.C. 20004.*

Your roads. You've got a lot riding on them.
